SUPER PEPTIDES

The image shows a hand holding a rectangular product box for 'Teana Super Peptides Eye Contour Perfector Serum'. The box is white with green accents. On the left side, the Teana logo and 'laboratories' are visible. The product name 'SUPER PEPTIDES' is prominently displayed in bold green letters. Below it, 'EYE CONTOUR PERFECTOR SERUM' is written in a smaller green font. Underneath, the Russian text 'СЫВОРОТКА СОВЕРШЕННЫЙ КОНТУР ГЛАЗ' is printed. The right side of the box features a vibrant, abstract illustration of a woman's eye with colorful makeup. A diagrammatic line points from the eye illustration to the Russian text describing the product's benefits. At the bottom of the box, the peptide complex 'EYESERYL • SYN-EYE' is listed.

about peptides

Peptides are naturally occurring or synthesised compounds. Their molecules are composed of amino acid residues linked by peptide bonds.

They are some of the most effective and promising cosmetic ingredients characterised by high potency and the ability to affect biochemical processes in cells.

Innovative peptide complexes are successfully used to cure stressed, inflamed and sensitive skin, as well as combat wrinkles, fine lines and other signs of ageing.

competitive environment

Peptide-based cosmetics has been a steady trend in the skincare industry over the recent years.

Peptides are widely used in anti-age and anti-stress beauty products across different price segments. Consumers strongly perceive them as most powerful cosmetic products.

The market continuously offers new specific peptides, but at the same time the customer is permanently searching for products that would be most effective for their skin.

EYE CONTOUR PERFECTOR SERUM

SUPER PEPTIDES

the basis of the line (components present in all serums) is a powerful complex of skincare ingredients:

SEPITONIC M3 improves cellular respiration and intercellular communication, enhances ATP synthesis, protects the skin against stress, pollution and ageing.

Laminixyl IS improves skin integrity and functions by strengthening the dermo-epidermal junction.

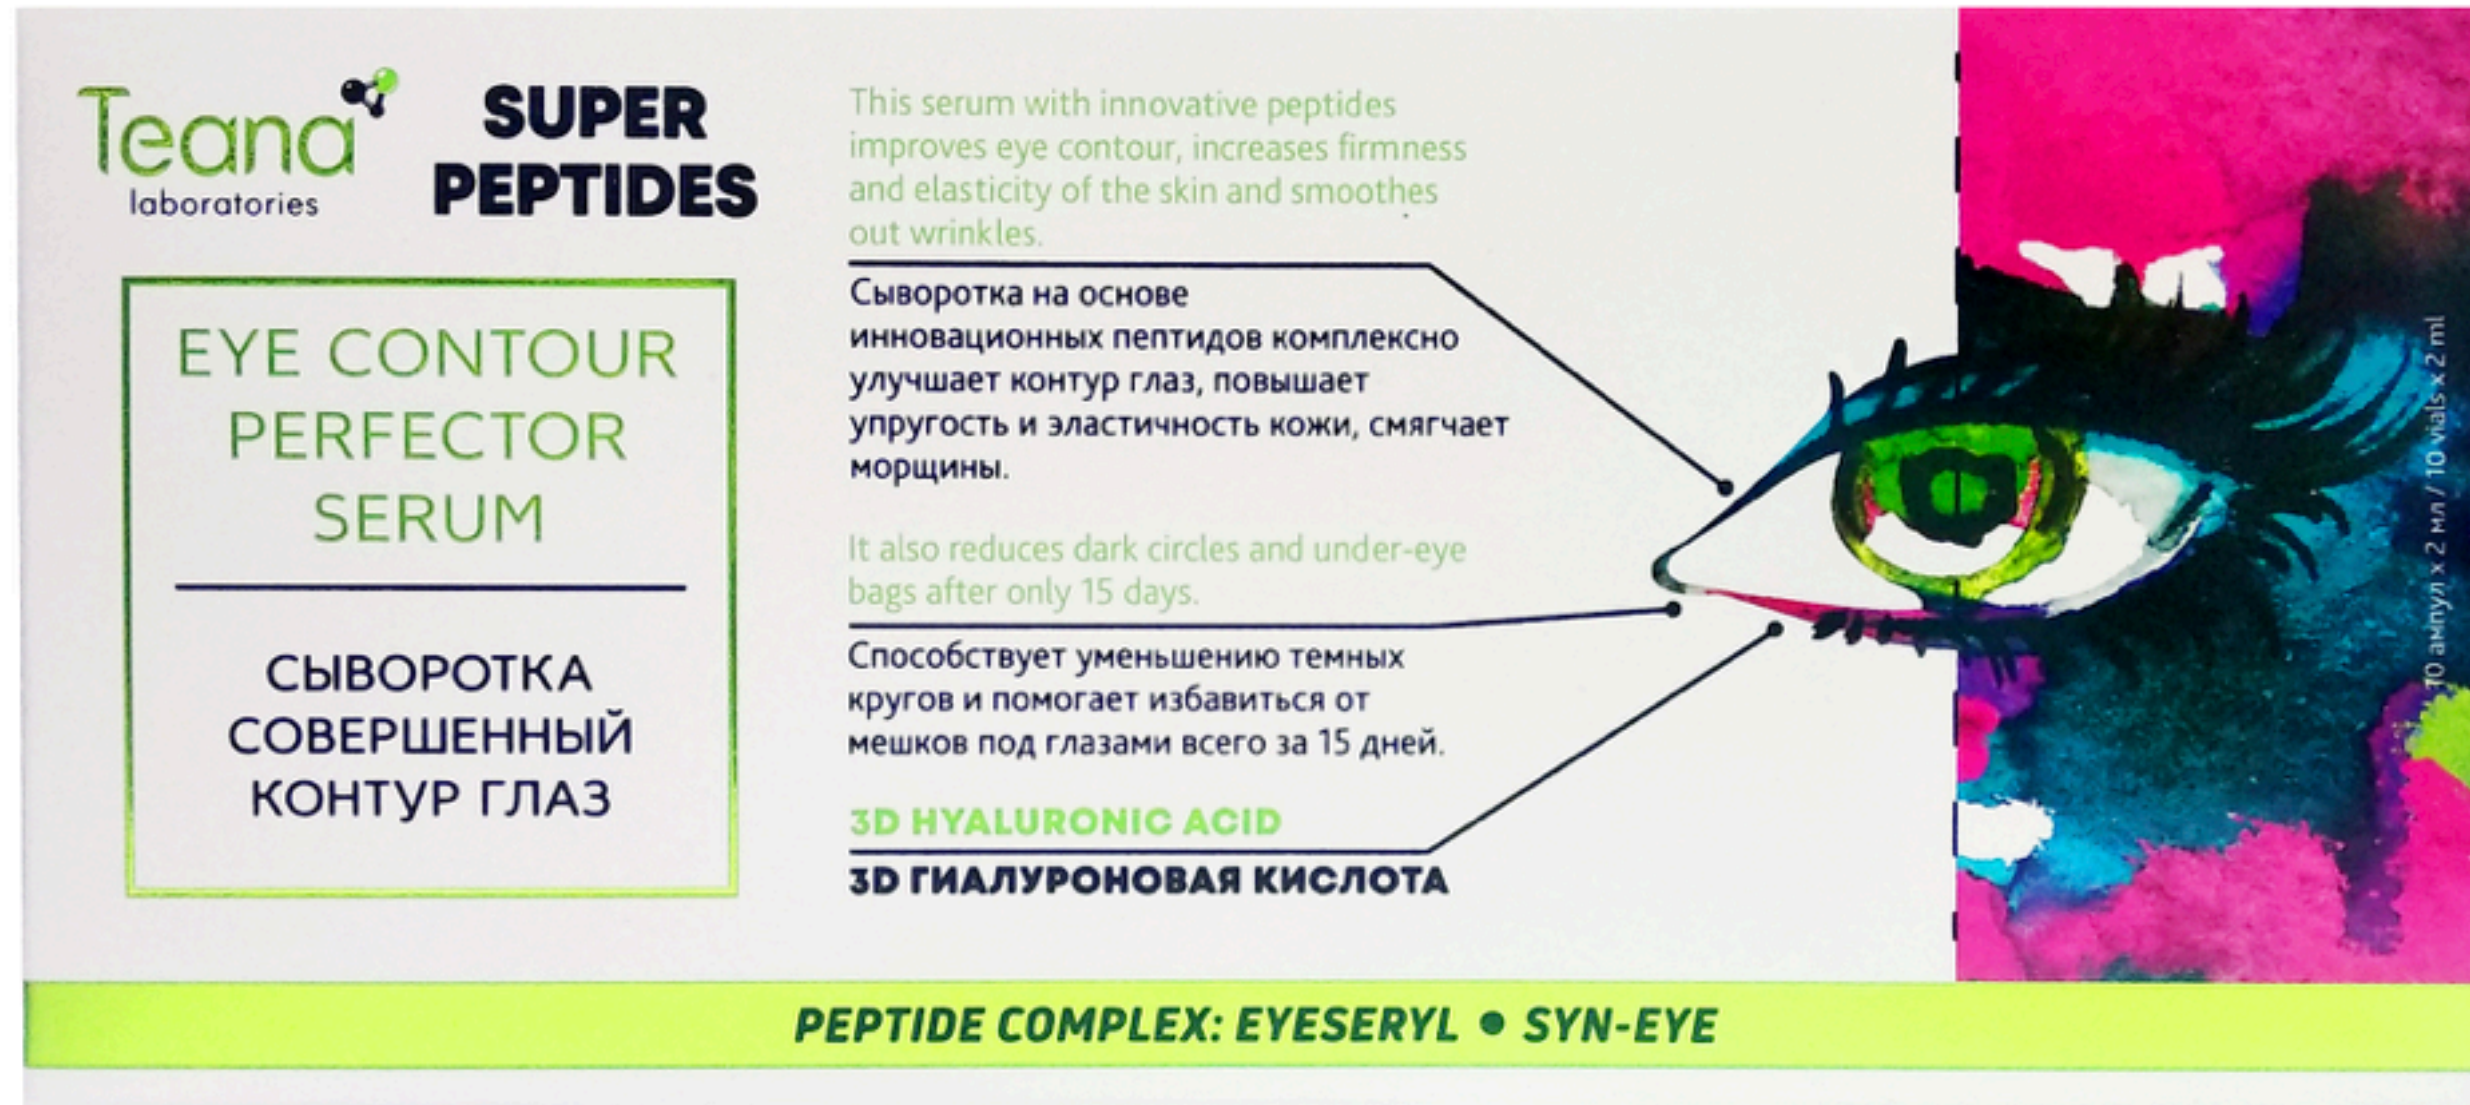

Neomatrix remodels the extracellular matrix and reduces wrinkles and fine lines.

Survixyl IS is designed to optimise and protect endogenous stem cells of the epidermis for skin self-renewal.

Chronogen enhances the expression of clock genes in the skin to protect against UV effects in the daytime and improve skin cell regeneration during the night.

3D hyaluronic acid moisturises the skin at all levels and improves the effect of active ingredients on target cells.

EYE CONTOUR PERFECTOR SERUM

СЫВОРОТКА СОВЕРШЕННЫЙ КОНТУР ГЛАЗ

This serum with innovative peptides improves eye contour, increases firmness and elasticity of the skin and smoothes out wrinkles.

Сыворотка на основе инновационных пептидов комплексно улучшает контур глаз, повышает упругость и эластичность кожи, смягчает морщины.

It also reduces dark circles and under-eye bags after only 15 days.

Способствует уменьшению темных кругов и помогает избавиться от мешков под глазами всего за 15 дней.

3D HYALURONIC ACID
3D ГИАЛУРОНОВАЯ КИСЛОТА

PEPTIDE COMPLEX: EYESERYL • SYN-EYE

10 ampoules x 2 ml / 10 vials x 2 ml

EYE CONTOUR PERFECTOR SERUM

The serum based on innovative peptides acts comprehensively to improve the eye contour and enhance skin resilience and elasticity.

Evens out wrinkles and fine lines, reduces dark circles and helps to remove eye bags in just 15 days.

Eyeseryl reduces puffy eyebags in only 15 days.

SYN-EYE helps to improve skin texture, making the delicate skin around the eyes look smoother. Visibly reduces the appearance of lines and wrinkles.

Instructions: apply to cleansed dry eye contour skin in the morning and in the evening, wait until fully absorbed. Each ampoule can be used for 2 to 4 applications. 10 day course is recommended.

ASAP SKIN TONE CORRECTION SERUM

СЫВОРОТКА СРОЧНАЯ КОРРЕКЦИЯ ТОНА КОЖИ

This serum is based on high concentrations of pure peptides and brightening complex. It acts on several mechanisms of hyper pigmentation.

Сыворотка на основе высоких концентраций пептидов и осветляющих компонентов воздействует сразу на несколько ключевых механизмов образования пигментации.

It reduces the size and the density of pigment spots, and evens out skin tone after only 7 days.

Доказанно выравнивает тон кожи и уменьшает плотность и размер пигментных пятен уже через 7 дней.

3D HYALURONIC ACID
3D ГИАЛУРОНОВАЯ КИСЛОТА

BRIGHTENING COMPLEX: SEPIWHITE MSH • MELANOSTATINE • CASPALINE 14

10 ампул x 2 мл / 10 vials x 2 ml

ASAP SKIN TONE CORRECTION SERUM

This serum is based on high concentrations of pure peptides and brightening complex. It acts on several mechanisms of hyper pigmentation.

It reduces the size and the density of pigment spots, and evens out skin tone after only 7 days.

Sepiwhite MSH is an effective solution for reducing all kinds of pigmentation. It acts on α -MSH, lightening melanocytes. Proven lightening effect in 7 days.

Melanostatine safely inhibits melanogenesis. It reduces uneven and hyper pigmented areas, brightening the skin and bringing you more vibrant look.

Caspaline 14 boosts skin's natural UV defence by activating caspase 14.

Instructions: apply to cleansed skin morning and night. Wait until fully absorbed. You can use one ampoule within 2 to 4 days. 10 day regimen is recommended.

NO PROBLEM INTENSIVE CARE SERUM

СЫВОРОТКА ИНТЕНСИВ ДЛЯ ПРОБЛЕМНОЙ КОЖИ

This serum is designed to intensively treat acne-prone skin, providing deep penetration of active ingredients.

Сыворотка направлена на интенсивное оздоровление проблемной кожи.

It restricts the growth of bacteria that causes acne and regulates sebum production, making your skin look pure and calm.

Обеспечивает глубокое проникновение активных ингредиентов в кожу, способствует снижению роста бактерий, вызывающих акне, контролирует выработку себума. Помогает сделать кожу более чистой и спокойной.

3D HYALURONIC ACID
3D ГИАЛУРОНОВАЯ КИСЛОТА

DERMO-PROTECTOR: LIPACIDE C8G (CAPRYLOYL GLYCINE)

NO PROBLEM INTENSIVE CARE SERUM

This serum provides intensive revitalising of acne-prone skin.

The complex ensures deep penetration of active ingredients into the skin, inhibits growth of acne bacteria and regulates sebum production.

Makes the skin cleaner and calmer.

LIPACIDE C8G is a powerful dermo-protector which restores acid layer of the skin and provides anti-sebum effect.

Instructions: apply to cleansed skin morning and night. Wait until fully absorbed. You can use one ampoule within 2 to 4 days. 10 day regimen is recommended.

10x2 ml

Teana[®] laboratories SUPER PEPTIDES

IN-HOME CIRCULAR FACELIFT SERUM

СЫВОРОТКА КРУГОВАЯ ПОДТЯЖКА ЛИЦА ДОМА

This serum contains high concentrations of anti-aging peptides. It improves facial contours, strengthens skin structure and makes the skin look smooth and supple.

Сыворотка с высокими концентрациями антивозрастных пептидов улучшает овал лица и гладкость кожи, укрепляет ее структуру и повышает тургор.

It also protects against deformation and corrects age-related volume loss.

Защищает от деформации и работает как антивозрастной филлер.

3D HYALURONIC ACID
3D ГИАЛУРОНОВАЯ КИСЛОТА

PEPTIDE COMPLEX: SERILESINE • RELISTASE • ADIFYLINE

IN-HOME CIRCULAR FACELIFT SERUM

This serum contains high concentrations of anti-aging peptides. It improves facial contours, firms skin texture and makes the skin look smooth and supple.

It also protects against deformation and corrects age-related volume loss.

Serilesine is a peptide for strengthening skin structure and improving skin's firmness and elasticity.

Relistase increases skin's elasticity and helps resist age-related deformation.

Adifylne increases volume in the cheek area by promoting PGC-1a expression and lipid accumulation in the adipose tissue.

Instructions: apply to cleansed skin morning and night. Wait until fully absorbed. You can use one ampoule within 2 to 4 days. 10 day regimen is recommended.

ANTI-REDNESS AID KIT SERUM

СЫВОРОТКА ПОМОЩЬ ПРИ ПОКРАСНЕНИЯХ

This serum reduces neurogenic inflammation and relieves inherent discomfort for sensitive skin.

Сыворотка способствует снижению нейrogenного воспаления и помогает устранить неприятные ощущения, свойственные чувствительной коже.

It also restores the damaged barrier function of the skin, bringing it comfort and softness.

Восстанавливает нарушенную барьерную функцию кожи, возвращая ей комфорт и мягкость.

3D HYALURONIC ACID
3D ГИАЛУРОНОВАЯ КИСЛОТА

PEPTIDE COMPLEX: DELISENS • TELANGYN

10 ampoules x 2 ml / 10 vials x 2ml

ANTI-REDNESS AID KIT SERUM

This serum reduces neurogenic inflammation and relieves inherent discomfort for sensitive skin.

It also restores the damaged barrier function of the skin, bringing its comfort and softness.

Delisens promotes relief from irritation for sensitive skin.

Telangyn — decreases redness and telangiectasia caused by an exaggerated inflammatory response.

Instructions: apply to cleansed skin morning and night. Wait until fully absorbed. You can use one ampoule within 2 to 4 days. 10 day regimen is recommended.
