

Teana[®] vegenius

100% natural flower water *face & hair care*

Teana vegenius

flower waters market

The natural cosmetics market offers hydrolates (in a usual volume of 50-100 ml). Hydrolates are a by-product of distillation of essential oils. The format is famous among target audience and natural cosmetics lovers.

Teana did more! We have created not only a 100% natural, but also an innovative product. Pure floral waters are based on the water-soluble fractions of valuable essential oils and are enriched with dihydroquercetin which is a powerful natural antioxidant.

Competitive advantages:

- Active skincare formulations
- Enjoyable natural fragrance
- Large volume of 125 ml

Perfect for summer

Teana vegenius

**100% natural
flower waters**
face & hair care

Now it's so easy to refresh your skin and hair!

100% natural flowers waters contain the water-soluble fractions of valuable essential oils and powerful natural antioxidant dihydroquercetin (flavonoid derived from larch extract), providing a protective and detox effect.

It's multifunctional: you can use it for both face and hair, making you feel super fresh!

new solution

Perfect for summer

4 SKU
