10 DAYS

10 AMPOULES

AN ALTERNATIVE TO PROFESSIONAL
BEAUTY TREATMENTS

FUNGUSTO

Simple. Effective. Long-lasting.

10 day beauty course

This serum complex provides all-round care for skin of any type. These 10 ampoules are to be used for 10 days, giving the skin the comprehensive care it requires.

An alternative to beauty salons

This ready-made full course replaces several different treatments, improving the main characteristics of the skin in only 10 days. It serves as the perfect express beauty solution to prepare for an important event or to give your skin a refreshing boost. The course is suitable even for sensitive skin.

Innovative mushroom extracts

The serums contain active ingredients based on healing mushrooms – the latest innovation in cosmetology.

Monodoses

Each time you open a new ampoule you use a fresh product with a high concentration of active ingredients.

Day 1 & 2:

SUPER GENTLE PEEL

- Peels without irritation
 - Gives comfort to even very sensitive skin
 - Purifies and refreshes
-

Effect: the peel prepares the skin for further care. Mukor fungi extract gently peels and renews skin, making it incredibly fresh and smooth. Cordyceps and trametes extracts give maximum comfort and calm even supersensitive skin.

Result: refreshed, smoother and purer skin.

Skin type: any.

Active ingredients:

Actifoliolate promotes a gentle peeling effect without irritating the skin. It is based on an extract of the fungi *Mucor miehei* and exfoliates the skin in a cell-selective manner for a smoother appearance.

Actisoothe gives the feeling of ultimate comfort for sensitive skin. It is an extract of the mushrooms *Cordyceps sinensis* and *Trametes versicolor*. It helps to ease sensorial discomfort and the visible consequences of skin damage.

3D-hyaluronic acid deeply moisturizes the skin. It penetrates to deeper layers of the skin, increasing skin's moisture level and elasticity. It smoothes out wrinkles and improves skin texture.

FUNGUSTO

10-day beauty regimen with innovative mushroom extracts

Day 3 & 4:

NATURAL WRINKLE FILLER

Smooths wrinkles

- Improves elasticity
 - Lifts and gives a more supple appearance
-

Effect: the extract of white truffle fills the wrinkles from within. It also improves the skin's elasticity as it raises the moisture level by 48%. Shiitake mushroom extract considerably improves the collagen quality in the skin, giving a lifting effect.

Result: wrinkles filled from within.

Skin type: any.

Active ingredients:

Actifcol provides an improvement in collagen quality. It is an advanced shiitake mushroom-based extract, selected to boost the synthesis, improve the quality and reduce the deterioration of collagen, a key protein in imparting tensile strength.

W Tr-Active is a non-injection filler. White truffle phytocomplex for multiple anti-aging effects. It increases skin elasticity and delivers a filler effect, reduces wrinkles and eye bags and promotes skin hydration.

3D-hyaluronic acid deeply moisturizes the skin. It penetrates to deeper layers of the skin, increasing skin's moisture level and elasticity. It smooths out wrinkles and improves skin texture.

FUNGUSTO

10-day beauty regimen with innovative mushroom extracts

Day 5 & 6:

EXTRA COMFORT AND ANTI-POLLUTION SHIELD

- Soothes sensitive skin
 - Provides an antioxidant effect
 - Protects from negative external factors
-

Effect: cordyceps and trametes mushroom extracts soothe even very sensitive skin, relieving redness, inflammation and irritation. An innovative complex creates a strong antioxidant reaction in the cells, protecting them from pollution and other adverse environmental factors.

Result: calmer and softer skin.

Skin type: any.

Active ingredients:

Actisoothe gives the feeling of ultimate comfort for sensitive skin. It is an extract of the mushrooms Cordyceps sinensis and Trametes versicolor. It helps to ease sensorial discomfort and the visible consequences of skin damage.

Pollushield – promotes a double effect from the environmental factors. It helps to protect skin against the damage caused by harmful substances and improve dullness and dark spots for a better skin complexion.

3D-hyaluronic acid deeply moisturizes the skin. It penetrates to deeper layers of the skin, increasing skin's moisture level and elasticity. It smoothes out wrinkles and improves skin texture.

FUNGUSTO

10-day beauty regimen with innovative mushroom extracts

Day 7 и 8:

DEEP LIFTING AND REJUVENATION

- Firms the jawline
 - Increases elasticity
 - Reduces wrinkles
-

Effect: the serum contains shiitake mushroom extract and a restructuring hexapeptide, which together fill wrinkles from within and restore the moisture balance in the skin. It fights sagging, firms the jawline and reduces the depth of wrinkles.

Result: firmer and more supple skin.

Skin type: any.

Active ingredients:

Actifcol provides an improvement in collagen quality. It is an advanced shiitake mushroom-based extract, selected to boost the synthesis, improve the quality and reduce the deterioration of collagen, a key protein in imparting tensile strength.

Serilesine – strengthens the mature skin's structure. It is a peptide solution to increase the synthesis of Laminin-5, α6-integrin and hemidesmosomes, thus it strengthens the dermo-epidermal junction for a better skin compactness.

3D-hyaluronic acid deeply moisturizes the skin. It penetrates to deeper layers of the skin, increasing skin's moisture level and elasticity. It smoothes out wrinkles and improves skin texture.

FUNGUSTO

10-day beauty regimen with innovative mushroom extracts

Day 9 & 10:

RADIANCE AND AN EVEN SKIN TONE

- Gives a healthy complexion
 - Gently smoothes the skin tone
 - Reduces redness and pigmentation
-

Effect: a special enzyme derived from mucor fungus ensures gentle skin lightening and improves its texture. Colorless turmeric extract improves the skin's color and tone, protects it from UV damage and reduces inflammation and pigmentation. The face acquires a long-lasting natural healthy glow.

Result: a calmer and smoother skin tone.

Skin type: any.

Active ingredients:

Actizyme for bright and vibrant skin. It is a fungi-derived protease that produces a controlled and adequate desquamation without side effects. It increases clarity and moisture, improving the overall appearance of the skin.

Sabiwhite is an effective solution for a perfect skin tone. It is a color-free Curcuma longa (Turmeric) extract with skin whitening, anti-inflammatory and antioxidant properties. It also protects the skin against UVB radiation.

3D-hyaluronic acid deeply moisturizes the skin. It penetrates to deeper layers of the skin, increasing skin's moisture level and elasticity. It smoothes out wrinkles and improves skin texture.

FUNGUSTO

10-day beauty regimen with innovative mushroom extracts

How to use: use the serums in a recommended sequence twice a day, morning and night.

The 10 day skincare regimen is specifically designed to quickly improve main skin characteristics such as moisture level, sensitivity, elasticity, complexity and facial contours, skin tone and texture.

Just one set serves multiple purposes: delicate peeling, wrinkle filler, anti-pollution and antioxidant protection, rejuvenating and glow-giving treatment.
