WHAT'S THIS?

- Elastic properties of the tapes are close to human's skin.
- The tapes are made of hi-quality "breathable" cotton and have a hypoallergenic adhesive and the cutest print.

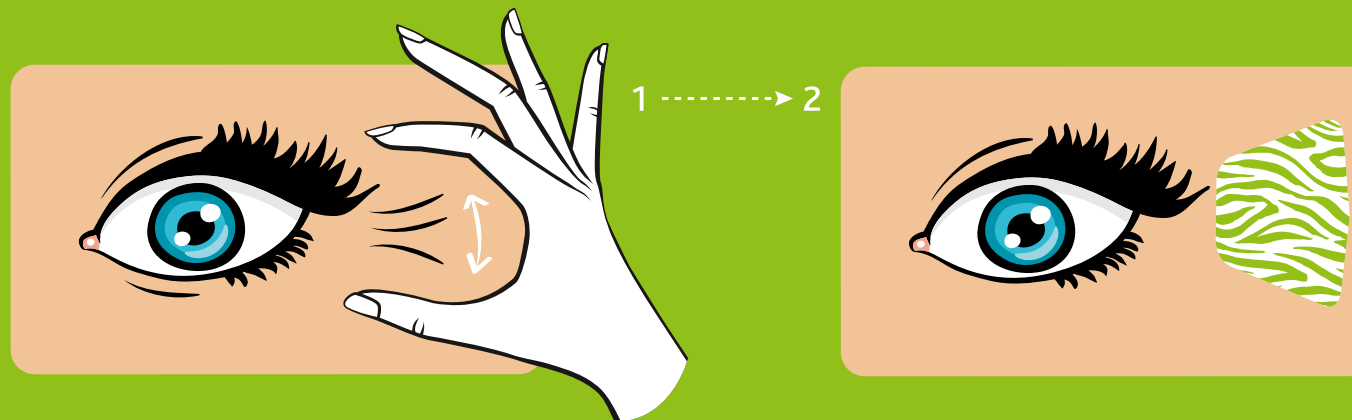

INNOVATIVE!

HOW DOES IT WORK?

- The tapes are fixing mimic muscles and the skin relieving hypertonicity and improving lymphatic drainage.
- They act on skin, subcutaneous fat, ligaments and muscles.
- When being used regularly the tapes induce muscular and cellular memory. So your facial skin and muscles remember the condition they should stay in even after the tapes are removed.
- Thus the taping method gives you a smoother skin and promotes a pronounced lifting effect.

HOW TO USE

- Apply onto cleansed dry skin.
- Pull the tape until the lines and wrinkles are completely disappeared.
- Fix it on the skin.
- Leave for 1 or 2 hours or use it overnight.
- Gently remove the tape with wet fingers.

FOR BEST RESULTS A COURSE
OF 21 DAYS IS RECOMMENDED
